Contents of volume

Volume 55, Number 1, March 2000

1 *D. A. Wright, F. J. Gordon, R. W. J. Steen and D. C. Patterson*
Factors influencing the response in intake of silage and animal performance after wilting of grass before ensiling: a review (Review Paper)

14 *A. S. Laidlaw and C. S. Mayne*
Setting management limits for the production and utilization of herbage for out-of-season grazing

26 *J. R. Roche, D. Dalley, P. Moate, C. Grainger, M. Hannah, F. O'Mara and M. Rath*
Variations in the dietary cation–anion difference and the acid–base balance of dairy cows on a pasture-based diet in south-eastern Australia

37 *A. S. Laidlaw, C. J. Watson and C. S. Mayne*
Implications of nitrogen fertilizer applications and extended grazing for the N economy of grassland

47 *M. A. Concha and A. M. Nicol*
Selection by sheep and goats for perennial ryegrass and white clover offered over a range of sward height contrasts

59 *P. J. Muto and R. C. Martin*
Effects of pre-treatment, renovation procedure and cultivar on the growth of white clover sown into a permanent pasture under both grazing and mowing regimes

69 *P. W. Wilkins, D. K. Allen and L. R. Mytton*
Differences in the nitrogen-use efficiency of perennial ryegrass varieties under simulated rotational grazing and their effects on nitrogen recovery and herbage nitrogen content

77 *S. O. Apori, R. J. Long, F. B. Castro and E. R. Ørskov*
Chemical composition and nutritrive value of leaves and stems of tropical weed *Chromolaena odorata* (Research Note)

82 Book Review

Volume 55, Number 2, June 2000

83 *F. J. Gordon, C. P. Ferris, D. C. Patterson and C. S. Mayne*
A comparison of two grassland-based systems for autumn-calving dairy cows of high genetic merit

97 *E. A. Laca and M. F. Wallis De Vries*
Acoustic measurement of intake and grazing behaviour of cattle

105 *P. J. A. Withers, S. Peel, A. G. Chalmers, S. J. Lane and R. Kane*
The response of manured forage maize to starter phosphorus fertilizer on chalkland soils in southern England

114 *R. E. Agnew and M. T. Carson*
The effect of a silage additive and level of concentrate supplementation on silage intake, animal performance and carcass characteristics of finishing beef cattle

125 *P. B. M. Berentsen, G. W. J. Giesen and J. A. Renkema*
Introduction of seasonal and spatial specification to grass production and grassland use in a dairy farm model

138 *B. Dumont, J. F. Maillard and M. Petit*
The effect of the spatial distribution of plant species within the sward on the searching success of sheep when grazing

146 *C. P. Ferris, D. C. Patterson, F. J. Gordon and D. J. Kilpatrick*
The effects of incorporating small quantities of straw in grass/grass silage-based diets for dairy cows

159 *J. Stencl and P. Homola*
Water sorption isotherms of leaves and stems of *Trifolium pratense* L.

166 *A. A. Elmi, C. P. West, R. T. Robbins and T. L. Kirkpatrick*
Endophyte effects on reproduction of a root-knot nematode (*Meloidogyne marylandi*) and osmotic adjustment in tall fescue

173 *C.-H. Kim, J.-J. Choung and D. G. Chamberlain*
The effects of intravenous administration of amino acids and glucose on the milk production of dairy cows consuming diets based on grass silage

181 *P. A. Todd, J. D. P. Phillips, P. D. Putwain and R. H. Marrs*
Control of *Molinia caerulea* on moorland

Volume 55, Number 3, September 2000

193 *G. T. Barthram, D. A. Elston and G. R. Bolton*
A comparison of three methods for measuring the vertical distribution of herbage mass in grassland

201 *M. Boval, P. Cruz, J. L. Peyraud and P. D. Penning*
The effect of herbage allowance on daily intake by Creole heifers tethered on natural *Dichanthium* spp. pasture

209 *B. R. Vázquez-de-Aldana, A. García-Ciudad, M. E. Pérez-Corona and B. García-Criado*
Nutritional quality of semi-arid grassland in western Spain over a 10-year period: changes in chemical composition of grasses, legumes and forbs

221 *D. L. Easson and W. Fearnehough*
Effects of plastic mulch, sowing date and cultivar on the yield and maturity of forage maize grown under marginal climatic conditions in Northern Ireland

232 *M. N. Callow, P. Michell, J. E. Baker and G. M. Hough*
The effect of defoliation practice in Western Australia on tiller development of annual ryegrass (*Lolium rigidum*) and Italian ryegrass (*Lolium multiflorum*) and its association with forage quality

242 *A. Harvey, A. J. Parsons, A. J. Rook, P. D. Penning and R. J. Orr*
Dietary preference of sheep for perennial ryegrass and white clover at contrasting sward surface heights

253 *R. A. Byers and G. M. Barker*
Soil dwelling macro-invertebrates in intensively grazed dairy pastures in Pennsylvania, New York and Vermont

271 *M. D. Fraser, R. Fychan and R. Jones*
Voluntary intake, digestibility and nitrogen utilization by sheep fed ensiled forage legumes

280 *Li Fengrui*
The effects of frequency of cutting and cultivar on the period of leaf expansion in white clover grown in mixed swards (Research Note)

285 Book Reviews

288 Announcement

Volume 55, Number 4, December 2000

289 *Å. T. Randby*
The effect of some acid-based additives applied to wet grass crops under various ensiling conditions

300 *K. Osoro, M. Oliván, R. Celaya and A. Martínez*
The effect of *Calluna vulgaris* cover on the performance and intake of ewes grazing hill pastures in northern Spain

309 *G. O. Nijland*
A variant of the dry-weight rank method for botanical analysis of grassland with dominance-based multipliers

314 *W. R. Cookson, J. S. Rowarth and K. C. Cameron*
The response of a perennial ryegrass (*Lolium perenne* L.) seed crop to nitrogen fertilizer application in the absence of moisture stress

326 *Y. Bai and R. Qu*
An evaluation of callus induction and plant regeneration in twenty-five turf-type tall fescue (*Festuca arundinacea* Schreb.) cultivars

331 *D. A. Wright, J. P. Frost and D. J. Kilpatrick*
The influence of weather factors on the drying rate of cut perennial ryegrass herbage under controlled conditions

343 *P. C. Chiy and C. J. C. Phillips*
Sodium fertilizer application to pasture. 10. A comparison of the responses of dairy cows with high and low milk yield potential

351 *L. K. Falkner and M. D. Casler*
Genetic shifts in smooth bromegrass under grazing: changes in nutritional value and preference for surviving vs. original genotypes

361 *R. Thanopoulos, C. A. Marriott and N. Sidiras*
Dynamics of perennial ryegrass and white clover in sown swards in NW Greece (Research Note)

367 *I. Bahmani, C. Varlet-Grancher, L. Hazard, C. Matthew, M. Betin, A. Langlais, G. Lemaire and E. R. Thom*
Post-flowering tillering in contrasting light environments of two New Zealand perennial ryegrass cultivars with different perennation strategies (Research Note)

372 *A. Hernández Garay, C. Matthew and J. Hodgson*
The influence of defoliation height on dry-matter partitioning and CO_2 exchange of perennial ryegrass miniature swards (Research Note)
